All are cordially invited to attend.

General Secretary, SAC

A very happy teachers day to all the teachers. The journey of IACS from a top research organization to a top University heavily relies on our teachers. Let me take this opportunity to thank all the past and present teachers of IACS for their active participation in inspiring and training our students over the years in the different teaching and research programs at IACS.

All of us who have chosen a career in academia, at some point of our lives, have been influenced and molded by our teachers. I think we all can be that influence in the lives of the young students who are enrolled in the different programs at IACS. We can all be a beacon helping students navigate through their lives and reach their highest potential. The strength of any nation depends on its human capital and that is what we, the teachers, help build. This is why teaching has always been considered to be a noble profession.

Happy Teacher's Day to all of you.

Santanu Bhattacharya, Director
