## Seminar Notice

Org. by

**Theoretical Physics Department**

<b>Title:</b>	<b>Where is SUSY?</b>
<b>Speaker:</b>	<b>Amitava Datta, Dept. of Theoretical Physics, IACS, Kolkata</b>
<b>Date:</b>	<b>June 27, 2017 (Tuesday)</b>
<b>Time:</b>	<b>03:00 p.m.</b>
<b>Venue:</b>	<b>Theoretical Physics Seminar Room (R/No.-C406), 3rd Floor, Centenary Building, IACS</b>
<b>Abstract:</b>	In spite of the painstaking searches for supersymmetry (SUSY) at different colliders that span more than three decades, no signal has been seen. Does this indicate that this symmetry is not realized in nature? We shall revisit the theoretical expectations and the recent experimental data from the LHC to find an answer to this question.

All are cordially invited to attend the seminar
