

CONTENTS

Front Title	603
Board of Editors	605–607
Front Contents	609–610
Astrophysics, Atmospheric & Space Physics	
Space-weather – causes, consequences and predictions ASHOK K SINGH AND R P SINGH	611–616
Radiative excitation of CS molecules in atmosphere of a star SURESH CHANDRA	617–620
Toroidal distributions in the polar wind plasma IMAD A BARGHOUTHI, NAJI A QATANANI AND MAZEN S ABU ISSA	621–624
Whistlers observed at low latitude stations Bhopal and Jammu SUNIL K SINGH, SUSHIL KUMAR, A K GWAL, LALMANI AND RAJOU KUMAR.....	625–629
Atomic & Molecular Physics	
Electron momentum distribution and Compton profiles of tin THOMAS VARGHESE, K M BALAKRISHNA AND K SIDDAPPA	631–634
Photoionization of potassium H SHARMA, KIRAN KUMARI AND S K PANDEY	635–638
General Physics	
Theoretical analysis of a right isosceles triangular microstrip antenna on ferrite substrate VIJAY KUMAR TIWARI, V BHARDWAJ, J S SAINI AND D BHATNAGAR	639–643
Microwave dielectric relaxation and molecular dynamics in ternary mixtures of poly (vinyl pyrrolidone)-poly (propylene glycol)-poly (ethylene glycol)s of varying molecular weights in non-polar solvent R J SENGWA AND ABHILASHA	645–650
Dielectric relaxation study of intramolecular hydrogen bonded o-hydroxy acetophenone in non-polar solvents K K GUPTA, M K SHARMA AND P J SINGH	651–655

Double-diffusive convection in compressible Walters' B' elastico-viscous fluid in hydromagnetics

R C SHARMA AND C B MEHTA 657–661

Optics & Spectroscopy

Average number of photons present in a single-mode squeezed vacuum state as function of the mean free path

A S DAOUD 663–668

Notes

Molecular interaction studies in the ternary mixture of 1-hexanol + acetonitrile + cyclohexane

D DEVADOSS, M THAIRIYARAJA AND L PALANIAPPAN 669–672

Dielectric relaxation in para-methyl acetophenone, pyridine and their binary mixtures in benzene solutions

K K GUPTA AND P J SINGH 673–676

Ultrasonic velocity studies in aqueous lithium salts

G RAJARAJAN, P REVATHY AND T K NAMBINARAYANAN 677–680

Viscous losses of non-polar solvent at microwave frequency 9.8 GHz

RAM NIHOR, S MISRA AND S K SAXENA 681–685

Forthcoming Publications (A) 687–690

Notes for Contributors 691–693

Our Special Publications 695–696

Announcements 697–702

Author & Subject Index 703–717
