

CONTENTS

Front Title	1341
Advisory Board and Editors	1343-1344
Front Contents	1345-1346
Astrophysics, Atomospheric & Space Physics	
Energetic electrons' energy release efficiency to amplify hiss-type waves U P SINGH, ASHOK K SINGH AND D P SINGH	1347-1351
Atomic & molecular Physics	
Relativistic multiconfiguration calculation for P II KEKA BASU CHOUDHURY, N C DEB, K ROY AND A Z MSEZANE	1353-1361
Condensed Matter & Materials Physics	
Effect of some antidiabetic drugs on the formation of brushite and struvite crystals THRESIAMMA CHACKO, T ASAITHAMBI AND C K MAHADEVAN	1363-1371
Some investigations on pure and impurity-added strontium tartrate trihydrate crystals R K VIJI, B GOWRI AND X SAHAYA SHAJAN	1373-1376
Preparation and characterization of phosphate-based phosphors for lamp industry S M NARANJE, S J DHOBLE AND S V MOHARIL	1377-1382
General & Interdisciplinary Physics	
Molecular interaction studies in the ternary mixtures of 1-propanol + carbon tetrachloride + 1,4-dioxane S VADIVEL AND L PALANIAPPAN	1383-1387
Nuclear Physics	
Evidence of three-particle dynamical azimuthal correlation of target fragments and medium energy protons in relativistic nuclear collisions DIPAK GHOSH, ARGHA DEB, ISHITA SEN (DATTA), JAYANTA ROYCHOWDHURY AND ASOK KUMAR MALICK	1389-1393

Fractal analysis of pionisation process in hadron-nucleus interactions – evidence of multifractality in compound (proton + pion) multiplicity distribution

DIPAK GHOSH, ARGHA DEB AND SITARAM PAL 1395-1402

Optics & Spectroscopy

Molecular interaction studies of *n*-propanol with methyl methacrylate in inert solvents

P SIVAGURUNATHAN, K DHARMALINGAM AND K RAMACHANDRAN 1403-1405

Particle Physics

Charge particle orbits in ‘Parelectric’ medium

C J CHAMMASHERIL AND P C VINODKUMAR 1407-1410

Notes

Photoionization of sodium atom

HIMANSHU SHARMA AND KIRAN KUMARI 1411-1413

Dielectric relaxation studies of binary mixtures of N-methylformamide and dimethylsulphoxide in benzene solution using microwave absorption data

RAJESH KUMAR, NAGESH THAKUR, D R SHARMA, VIR SINGH RANGRA AND NAINJEET SINGH NEGI 1415-1418

Ku band microwave transmission and reflection of moisture-laden brown and black soil

VIJAYA PURI, S DARSHANE AND S SHEIKH 1419-1422

X-ray diffraction, vibration spectra and thermal studies of nonlinear optical L-tyrosine hydrochloride single crystals

B NARAYANA MOOLYA AND S M DHARMAPRAKASH 1423-1425

Book Reviews 1427-1428

Forthcoming Publications 1429-1430

Notes for Contributors 1431-1434

Our Special Publications 1435-1436

Index (Author & Subject)–2005 1437-1474

Renewal Notice 1475

Renewal Order Form 1477
