Contents

Title	1
Board of Editors	3–4
Front Contents	5–6
Rapid Communication	
Hydrodynamic interaction between an accretion flow and a strong wind around a black hole D MOLteni, K ACHARYA AND SANDIP K CHAKRABARTI	7–10
Atomic & Molecular Physics	
Transition assignments to Lb_1 satellites in X-ray emission spectra of first transition series S N SONI AND S POONIA	11–16
Theoretical study of intermolecular interactions in nematogens : TBMA SUGRIVA N TIWARI, MADHURENDRA MISHRA AND NITISH K SANYAL	17–22
General Physics	
Molecular interaction study in binary mixtures of dimethylsulphoxide with 1,2-dichloroethane and 1,1,2,2-tetrachloroethane at 303 K A ALI AND H SOGHRA	23–28
Generation of circular polarization from microstrip scanned array antenna on YIG ferrite substrate LATA DIXIT AND P K S POURUSH	29–34
Optics & Spectroscopy	
Vibrational spectra and force fields for 2,3-; 2,4-; 2,5- and 3,4-dihydroxybenzaldehydes D N SINGH, I D SINGH AND R A YADAV	35–46
Plasma Physics	
Wavevector and frequency dependent complex dielectric function and the dynamical structure factor of two-dimensional weakly-coupled quantum and classical hot plasmas S P TEWARI AND JYOTI SOOD	47–51
Self-focusing of electromagnetic waves in collisional plasmas GHANSHYAM, M N SINGH, R MISHRA, V K TRIPATHI AND H D PANDEY	53–57
On the effects of drift motion and negative ions on ion-acoustic solitary waves and double-layers in plasmas S CHATTOPADHYAYA, S K BHATTACHARYA AND S N PAUL	59–65

[Cont'd. on next page]

Relativity & Cosmology

Junction conditions on the boundary of two different spacetime manifolds

KOUROSH NOZARI 67–70

Nonstatic global monopole in higher dimensional space time

F RAHAMAN, S CHAKRABORTY, K MAITY AND M KALAM 71–74

Thermodynamic functions of 2-anilinopyridine from IR and Raman spectra

M ISAQ, SANJIV ARORA AND R S KAJAL 75–77

Forthcoming Publications (A) 79–80**Notes for Contributors** 81–83**Announcements** 85–92
