

CONTENTS

Proceedings of the 6th National Conference on Solid State Ionics (NCSSI VI), held at the Department of Physics, Jadavpur University, Kolkata-700 032, India, during October 5-7, 2004

Front Title	677
Advisory Board and Editors	679–680
Front Contents	681–683
Foreword	685
Crystalline and composite materials	
Study of ion transport behavior in CeO_2 dispersed fast ion conducting composite electrolyte system	
R KUMAR, R K NAGARCH, R SHARMA AND R C AGRAWAL	687–690
Growth and DC conductivity studies in $\text{MnSeO}_4 \cdot 2\text{H}_2\text{O}$ single crystal	
R RAJESH, A SANTOSH KUMAR, LEESAL IYPE, GEORGEKUTTY JOSEPH AND GODFREY LOUIS	691–693
Structural analysis of lithium nickel vanadate Li_xNiVO_4 ($x = 0.8, 1.0, 1.2$)	
S SELVASEKARAPANDIAN AND M S BHUVANESWARI	695–698
AC conductivity and dielectric studies of $\text{K}_3\text{Na}(\text{SeO}_4)_2$ single crystal in the high temperature region	
GEORGEKUTTY JOSEPH, A SANTOSH KUMAR, LEESAL IYPE AND GODFREY LOUIS	699–702
Devices	
Proton conductors and their application	
R U TIWARI*, K SINGH AND S S BHOGA	703–706
Development of intercalating $\gamma\text{-MnO}_2$ for protonic solid-state battery	
HEMANT MALANKAR, K SINGH AND SMITA ACHARYA	707–710
A novel liquid-solid lead-acid secondary battery : study of charge-discharge behavior	
R C AGRAWAL, G P PANDEY, D SINGH AND M L VERMA	711–714
Solid state proton conducting secondary battery at room temperature	
K SINGH, S S BHOGA, S M BANSOD AND R U TIWARI	715–717

Citric acid induced improved homogeneity of CeO_2 coatings for electrochromic device applications	
AMITA VERMA, A K BAKSHI AND S A AGNIHOTRY	719–724
Performance of electrochemical CO_2 gas sensor with NASICON dispersed in a binary solid electrolyte system	
S S BHOGA AND K SINGH	725–726
Glasses	
Thermal investigations on mechanically milled and melt-quenched superionic glasses using differential scanning calorimetry	
ANSHUMAN DALVI* AND K SHAH	727–732
Effect of TiO_2 addition on the durability of sol-gel derived WO_3 films	
RASHMI SHARMA, T K SAXENA AND S A AGNIHOTRY	733–736
Transport property studies on a new silver ternary glassy electrolyte system : $x[0.75 \text{ AgI} : 0.25 \text{ AgCl}] : (1-x) [\text{Ag}_2\text{O} : \text{V}_2\text{O}_5]$	
R C AGRAWAL, ALOK BHATT, ANGESH CHANDRA, PUJA DIWAN AND M L VERMA	737–740
Electrical conductivity of $\text{Li}_2\text{O} : \text{B}_2\text{O}_3 : \text{ZnO}$ glasses	
R S GEDAM, A V DESHPANDE AND V K DESHPANDE	741–743
Ion transport studies on a new silver ion conducting lead borate glass system : $x [0.75 \text{ AgI} : 0.25 \text{ AgCl}] : (1-x) [\text{Ag}_2\text{O} : (\text{PbO} : \text{B}_2\text{O}_3)]$	
RANVEER KUMAR, NIDHI B JAIN, R K NAGARCH AND R C AGRAWAL	745–748
Frequency response of the mechanochemically synthesized $\text{AgI-Ag}_2\text{O-B}_2\text{O}_3$ superionic glasses	
ANKUR VERMA AND K SHAHI	749–752
Structural and transport studies on rapidly quenched $\text{PbI}_2\text{-Ag}_2\text{O-WO}_3$ composites	
S AUSTIN SUTHANTHIRARAJ AND VINOD MATHEW	753–756
Polymers	
Can lithium ion conducting gels have higher conductivity than the corresponding liquid electrolytes ?	
BOOR SINGH AND S S SEKHON	757–759
Effect of different plasticizers on the conductivity behaviour of polymer electrolytes containing NH_4PF_6	
JITENDER PAUL SHARMA AND S S SEKHON	761–763
Study on steady-state dark I-V characteristics in phenosafranin dye based solid-state thin film photoelectrochemical cell and calculation of band gap energy	
AJANTA HALDAR	765–768
Effect of 160 MeV Ne-ion irradiation on polymer salt complex films containing laponite	
K C VERMA, MINAKSHI MAITRA, SUJATA TARAFDAR, TAPAS RANJAN MIDDYA AND UDAYAN DE.....	769–772

Influence of plasticizer on the conductivity of PMMA – based proton conducting gel electrolytes SHILPA PANDEY, S PATEL AND S L AGRAWAL	773–776
AC impedance and dielectric spectroscopic studies of proton conducting PVAc – PVdF blended polymer electrolytes R BASKARAN AND S SELVASEKARAPANDIAN	777–781
Investigation of swift heavy ion irradiation (160 MeV, Ni ¹²⁺) effects on polypyrrole conducting polymers used as electrode materials for all polymer redox supercapacitor A M PHARHAD HUSSAIN, D SAIKIA, A KUMAR, F SINGH AND D K AVASTHI	783–787
Studies on proton conducting polymer electrolytes gelled with PVdF and PVdF-HFP HARINDER PAL SINGH	789–792
Electrical conduction in wax and natural gum resin H MALLIK AND A SARKAR	793–796
Ionic conductivity studies of PVA – PVP blends S SELVASEKARAPANDIAN, G HIRANKUMAR, T SAVITHA AND C S RAMYA	797–801
Ionic conduction studies in C ⁵⁺ ion irradiated P(VDF-HFP)–(PC+DEC)–LiC1O ₄ gel polymer electrolyte system D SAIKIA, A M P HUSSAIN, A KUMAR, F SINGH AND D K AVASTHI	803–806
Formation of polyethylene oxide-based composite polymer electrolytes blended with Al ₂ O ₃ nanoparticles A AUSTIN SUTHANTHIRARAJ AND D JOICE SHEEBA	807–813
List of Participants at the 6th NCSSI	815–816
Forthcoming Publications	817–818
Notes for Contributors	819–821
Our Special Publications	823–824
Announcements	825–828
