

Indian Journal of Physics B
Vol. 76B • No. 3 • June 2002

Contents

<i>Front Title</i>	229
<i>Board of Editors</i>	231–232
<i>Front Contents</i>	233–234
Review	
Lightning generated ELF, VLF, optical waves and their diagnostic features R P SINGH, R P PATEL, ASHOK K SINGH AND I M L DAS	235–249
Astrophysics, Atmospheric & Space Physics	
Geospot as a source of geothermal energy TUSHAR K DAS	251–254
Some observations on microwave propagation under clear air, fog and cloudy atmospheric conditions in Indian southern region S K SARKAR, K MEGHA RAJU, D PUNNYASESHUDU, M M GUPTA AND RAJESH KUMAR	255–258
Hale cycle oriented periodicity in second harmonic of daily variation in cosmic ray intensity on quiet days SANTOSH KUMAR, REKHA AGARWAL, RAJESH MISHRA, S K DUBEY AND M K RICHHARIA	259–263
Atomic & Molecular Physics	
Oscillator strengths and lifetimes in P V, S VI and Cl VII G P GUPTA AND A Z MSEZANE	265–275
General Physics	
Acoustical studies on the effect of urea on the micelles of aqueous surfactants G RAVICHANDRAN	277–282
Dielectric relaxation studies of four different varieties of rapeseed-mustard oil at different temperatures A K BANSAL, K K GUPTA, P J SINGH AND K S SHARMA	283–287
Thermal and mass diffusion on unsteady hydromagnetic flow with heat flux and accelerated boundary motion M ACHARYA, G C DASH AND L P SINGH	289–296

Optics & Spectroscopy

Vibrational analysis of 1,6-dichlorohexane

NEENA JAGGI AND R M P JAISWAL 297–306

Infrared and Raman spectral studies and evaluation of force fields for the three isomeric methoxy benzaldehydes

D N SINGH, I D SINGH AND R A YADAV 307–318

Plasma Physics

Use of optical emission spectroscopy to monitor the silane-argon plasma

P P RAY AND P CHAUDHURI 319–323

Note

Laser Raman and FT-IR spectroscopic study of antimony thiourea bromide crystals

S GOVINDA BHAT AND S M DHARMAPRAKASH 325–328

Book Reviews 329–332*Forthcoming Publications (A)* 333*Notes for Contributors* 335–337*Announcements* 339–342
