

Indian Association For the Cultivation of Science

Invited Lecture on

Ribosomal Protein Beyond Ribosome: Master Regulator Of Inflammation and Mammalian Embryogenesis.

By

Professor Barsanjit Mazumder, Ph.D.

Professor of Molecular Genetics

Center for Gene Regulation in Health & Disease;

Department of Biological Science, Cleveland State University, 2399 Euclid Avenue, Cleveland, OH

Dr. Mazumder's, professor of Molecular Genetics, has a long-term research goal to understand the mechanisms of anti-viral innate immunity, Post-transcriptional regulation as a mechanism for resolution of inflammation. Molecular mechanisms of the pathogenesis of Cardiovascular Disease and Gastrointestinal Disease . Basic mechanisms of Translation Control and Ribosome Biogenesis.

Venue: IACS, C V Raman Hall (2nd Floor IACS main building)

Date: 9th January, 2019 (Wednesday)

Time: 11.30 hrs

All are cordially welcome.
