| <b>Title:</b>    | <b>The Quantum and the Continuum : Einstein's Dichotomous Legacies</b>                                                                                                                                                                                                                                                                                                                                  |
| <b>Speaker:</b>  | <b>Partha Sarathi Majumdar, School of Physical Sciences, IACS</b>                                                                                                                                                                                                                                                                                                                                       |
| <b>Date:</b>     | <b>January 24, 2020 (Friday)</b>                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Time:</b>     | <b>15:00 Hours</b>                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Venue:</b>    | <b>Physics Seminar Room (C406), 3rd Floor, Centenary Building, IACS</b>                                                                                                                                                                                                                                                                                                                                 |
| <b>Abstract:</b> | An attempt is made to discern a dichotomy between the two legacies of Albert Einstein, having respectively to do with his seminal and pioneering contributions to the quantum theory and theories of spacetime. A modern attempt to resolve the dichotomy will be discussed, with a brief survey for future implications. The talk will be semi-technical in nature, and accessible to our UG students. |

**All are cordially invited to attend the seminar**

With regards,

Prof. K.Sengupta, School of Physical Sciences
